

## SMS Notifications Pricing

The cost of sending an SMS from Tablein varies according to the country you're sending it to and GSM Network. Here you can check the SMS message rates to any destination.

Prices are subject to change without notice.

Please Note: SMS message has character limitations that depend on the language being sent (typically between 70 and 140 characters per SMS).

Languages using the Roman alphabet such as English or Spanish can use the character limit 140. Other languages that use characters such as Hindi, Arabic, Chinese, Korean and Japanese, or Cyrillic languages such as Russian, Ukrainian, Serbian and Bulgarian are limited to 70 characters. Symbols such as \$, ó, à are counted as 2-3 characters. E.g. word Confirmación contains 14 characters not 12.

If any SMS text exceeds the maximum characters allowance (including spaces), it will be split into multiple messages when it reaches the recipient.

For example: If your SMS contains 141 characters, the cost of that SMS will be double, as it needs to be sent as two separate messages).
